

Masterpiece Project

Senior Tech is a social media website that helps older adults

Senior
tech

- Senior Tech is a contact-based social media platform that helps older adults connecting on a platform so they can share knowledge and experiences over different topics they need help with.
- There will also be a specific section that is managed by the website's admins in which there will be a set of videos and articles on how to use the popular communication sites, where the user can enter the section of the social media in which he is facing a problem and if it is not a sufficient source.
- Users can add the question and the website management will follow Comments and answers, and they will also add an official answer in the name of the account affiliated with the website.

About

Social Impact

The use of new technologies by older adults significantly contributes to a better quality of life, improving parameters of daily living such as transportation facilitation, communication, and participation in social life. Further, it offers the link of older adults to services that meet their immediate needs and in particular the cooperation and coordination with the network of Primary Care and Social Protection. Also, it is effective in alleviating social isolation among older adults.

Website Content

- Client Side:

1. Register/Login
2. Feed
3. Profile
4. Chat
5. Pages
6. Course

- Admin Side:

1. Login
2. Manage Courses
3. Manage posts and comments
4. Manage users
5. Manage admis

Database Hierarchy
